

Daryl Evans for APC Vice President

My name is Daryl Evans and am asking for your vote to be the next APC Vice President. I want to be a leader that will work with the Board and membership to increase visibility, activity and vitality throughout our Union and membership.

I have worked at California State University Dominguez Hills since 1997 and currently serve as an Academic Advisor in the College of Business and Public Policy. I have served the union in a wide range of leadership roles, including Campus Steward and Chief Campus Steward, and Chair of the APC Education Committee. I served on the Policy and Procedures Committee and the External Relations Committee. Throughout my membership, I have taken part in several Lobby Days at the State Capitol and rallies at the Chancellor's Office.

I have been elected by our statewide Council to a position on the Bargaining Team for several years. I am serving as the current Bargaining Chair, leading the team through a sometimes difficult negotiation process.

As Chief Steward at Dominguez Hills, it is my honor to serve our campus membership. My priority has been to fight for each individual to ensure their workplace was a safe environment and that their rights are not impinged on by management. As Vice President of APC that will be my highest priority, service to our members on every campus.

As the Chair of the Education committee, I developed a series of open workshops and townhalls to educate both stewards and members about our contract and to respond to individual member questions and concerns. My goal is to increase that outreach to our members and hopefully inspire others to join in our resolve to improve working conditions on our campuses.

As Vice President, I bring a commitment to an environment where all members will be heard and respected. I have strong leadership skills that were acquired through my experiences working with non-profits and within the corporate world. I will continue to mentor and help develop the future leaders of APC.

Thank you for all you do to make the CSU and APC wonderful organizations.

In union,

Daryl Evans
